UI Prototyping UI Design UI Animation Mobile Design Web Design Design Systems

User Experience Customer Development CJM User Stories Mind Mapping

HTML5 & CSS3 JavaScript GIT Scrum Kanban

I like to solve problems of users, to make their interaction with products more pleasant. I like the process itself, the painstaking collection of small pieces into a big picture. And then to observe how what has been done lives on, to maintain and improve it.

Experience

From oct 2021
Moscow
