Lead Designer

vladi.mikh.vm@gmail.com   +7 967 387 2444

UI Prototyping   UI Design   UI Animation   Mobile Design   Web Design   Design Systems

User Experience   Customer Development   CJM   User Stories   Mind Mapping

HTML5 & CSS3   JavaScript   GIT   Scrum   Kanban

I prefer to improve users' experience, in order to make their interaction with products more convenient. Of course i like the process when i fit small pieces together in one big picture, but moreover, i like to observe how the result of my work will be implemented into the project and then how it lives and improves under my guidance.

Experience

From oct 2021
Moscow
